# Two New Leaded Window Packs

Introducing the latest line of stained glass overlay window kits. A comprehensive range of designs that can be used on both window and door areas. Even beginners can achieve remarkable results using any one of these super packs. Each kit contains professional standard material currently used throughout the glass and window industry. Tools and template printing software are also included.

## TRADITIONAL LEADED WINDOW KIT **006639**

Decorating a window or glass surface around the home has never been easier. Using one of the new Dura lead window leading kits will enable you to transform a plain dull old glass window into something special. This traditional leaded window kit contains everything needed to get your project completed. Software with a variety of designs enables you to custom fit any one of four patterns to your existing window or door size. This pack is also available without the pattern software and comes in 4mm, 6mm, 9mm and 12mm wide lead profiles.

## STAINED GLASS WINDOW KIT **006641**

A simple and very cost effective way of converting a single plain glass panel into a colorful elegant work of art. This super kit contains enough material to compete any one of 4 designs provided in the stained glass software, which is also included. The lead overlay in the kit is 6mm wide which helps with easy curving or bending. Even a beginner can make a top class job with this pack. Application tools are also included.

**Applied On To  
Any Existing Glass**

**You can download free design software:**
